REFER TO FILE: **T-3**

July 15, 2004

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

RADAR SPEED ENFORCEMENT SUPERVISORIAL DISTRICT 5 3 VOTES

IT IS RECOMMENDED THAT YOUR BOARD:

Adopt an Order instructing the Director of Public Works to coordinate with the California Highway Patrol (CHP) to implement radar speed enforcement on Steinbeck Avenue between Stevenson Ranch Parkway and the easterly terminus of Steinbeck Avenue, 500 feet east of Eliot Court, in the unincorporated County area of Stevenson Ranch.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The residents of Stevenson Ranch and the CHP are concerned about public safety in pursuing speeders with conventional speed enforcement measures and requested the use of radar speed enforcement on this route.

Our study has verified that a portion of traffic on this route is exceeding the posted 25-mph speed limit. High-speed surveillance and pursuit exposes the offender, law enforcement personnel, and the general public to increased accident potential. The use of radar will significantly reduce accident potential.

Implementation of Strategic Plan Goals

This action is consistent with the County Strategic Plan Goal of Service Excellence since radar speed enforcement significantly reduces speeding and accident potential caused by high-speed surveillance and pursuit and, therefore, will improve the quality of life in the County.

FISCAL IMPACT/FINANCING

Not applicable.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On March 31, 1987, your Board approved a Memorandum of Understanding with the CHP for the expanded use of radar enforcement within the unincorporated County area. The Memorandum of Understanding was revised and approved as an agreement between the County of Los Angeles and the CHP by your Board on October 5, 1993. A key provision of the agreement requires the use of radar on any additional routes be subject to mutual approval by the County of Los Angeles and the CHP. The proposed recommendation for the use of radar on this route is in conformance with this provision of the 1993 agreement.

ENVIRONMENTAL DOCUMENTATION

The establishment of radar enforcement, including the installation of related traffic control devices required to notify the motoring public, is categorically exempt under Class 1-(x)7 of the Environmental Guidelines approved by your Board.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Not applicable.

CONCLUSION

At such time as this recommendation may be approved, please return one copy of this letter to Public Works.

Respectfully submitted,

JAMES A. NOYES
Director of Public Works
